MAERSK MALAYSIA CAMPUS NEWSLETTER

HIGHLIGHTS & UPDATES

Introducing UpSide

Logistics is rarely considered a world of opportunities. But sometimes all it takes is another perspective (rotate yourscreens).

Integrated logistics holds some of the most untapped potential for business growth in this decade. Made possible by new digital platforms, 'connected' physical assets and unique insights.

Transporting Empty Containers Back to Asia

Last week, our team completed the highest TEU lift on an EEE vessel. Madison Maersk departed from APM Terminal Tangier with 17, 906 TEU – Contributing in efforts to transport more empty containers back to Asia. We are proud of the dedicated work by all involved in this achievement to find solutions to support our customers needs.

Care Package

Earlier this month, Maersk Malaysia sent out care packs consisting of a few essential items for all our Malaysia colleagues. It was prepared in recognition of the times that we are in as we learn and adapt to living with the virus – with the nation transitioning to the endemic phase soon.

Discover the

UPSIDE

with integrated logistics

Watch the campaign film '[Upside](#)', which is a 2-minute film that depicts a heroine's emotional transformation, as we follow her down into a dystopian logistical world and then out of the other side, to discover a new land of opportunities – The Upside.
